

Integrate Your Knowledge Assets

A Strategic supplier of Data Management and Data Security Services

## Iyka Advantage

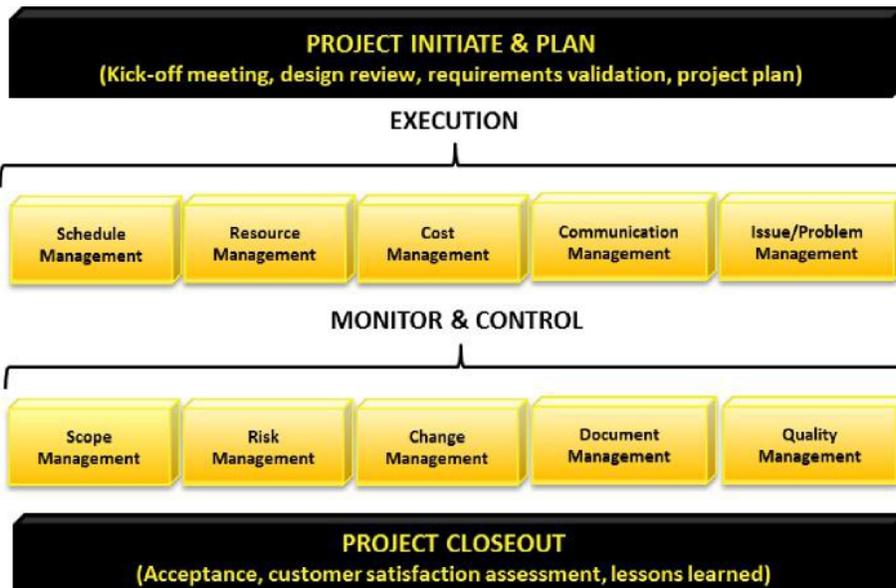

Iyka Solves These Types of Problems	Iyka Value Proposition to IT Program Managers
<b>Limited Budgets</b> Not having control over ongoing IT budget cuts / flat funding.	<b>No Surprises</b> Use a proven process to help avoid costly change orders.
<b>Scope Creep</b> Not being able to track small changes add extra costs and delays into your IT project.	<b>Scope Analysis</b> Use a detailed scope analysis to identify high-risk areas and help mitigate any potential problems
<b>Poor Communication</b> Not hearing from your IT vendor until there is a problem.	<b>Communications</b> Use a 3-point communications process to ensure a consistent flow of information.
<b>Technology Changes</b> Not having a plan for changes in technology, e.g., new operating system, that may require a complete IT system overhaul.	<b>Proactive Consulting</b> Three Senior solutions architects with average of 25 years of experience are ready to provide regular consultation.
<b>Success Metrics</b> Not having an effective way to measure IT system performance.	<b>Performance Metrics</b> Use a process to develop Key Performance Metrics (KPIs) to ensure simple and effective IT performance benchmarks.

### Project Management Overview

The Iyka Project Management Office (“PMO”) provides proven, full-lifecycle Management services by leveraging years of project delivery experience across a wide range of technologies.

Our project managers can help you manage projects of varying size allowing you to concentrate on more strategic initiatives, or to supplement your knowledge-base for high profile projects.

Our project management services include tracking action items and deliverables, maintaining control of scope changes, managing and tracking issue resolution, and accurately predicting budget variances. While continually monitoring project performance and anticipate what lies ahead in order to proactively adjust instead of reactively change.

## EXPTISE

The overall Iyka value proposition is to serve as a strategic supplier to the University of Illinois in the data management area.
